## G.O.P. CHIEFS REVISE INCOME TAX MEASURE

### Radical Changes Proposed By Coalition Forces Are Accepted

### TRAFFIC TAXES CUT

**Maximum Surtax Allowable Is Increased From Thirty-two to Fifty Per Cent.**

Washington, Oct. 7.—Radical revision of the Taxation bill in the Senate became assured today, when the regular Republican forces capitulated in the face of the coalition between the Democratic minority, the so-called G. O. P. progressives and members of the "agrarian bloc."

The Finance Committee, with its bill doomed to defeat unless amended, will meet tomorrow to receive the modifications of the insurgent group that now holds the whip hand This meeting will follow a series of conferences today and last night, at which Senator Lodge, the Republican floor leader, was informed that the bill could not pass as written by the Penrose organization in the Senate. The Finance Committee is expected to accept the ultimatum of the coalition group and to report as "committee amendments" substantially all the changes demanded.

Conferences so far and virtual agreements between the two sides, indicate the amendment of the Taxation bill in the following particulars:

A maximum surtax rate of 50 per cent., instead of 32 per cent., in the pending bill and 65 per cent. in the present law, effective January 1, 1922

Reductions in all the surtax rates on incomes below $66,000 the pending bill proposing a reduction on incomes of less than $20,000, but slightly increasing rates on incomes between $20,000 and $66,000 effective January 1, 1922.

Retention of the present corporation income tax of 10 per cent. on corporations having a net income of less than $50,000 with an increase to 15 per cent. on corporations with larger incomes, effective January 1, 1922.

Retention of the corporation capital stock tax, which is repealed in the Senate bill.

Repeal of the freight, passenger and express taxes effective January 1, 1922.

An increase in the maximum rate of tax on estates from 25 per cent, to 40 per cent., this state to apply on estates above $100,000,000.

Repeal of some of the miscellaneous "nuisance" taxes which are retained in the pending bill.

Adoption of the Calder amendment increasing the tax on whisky and alcohol.

Under the agreement the excess profits tax will be repealed, effective January 1, 1922, just as provided in the pending bill. There will be no change in the normal tax rates.

The tentative agreement killed all chances of the approval of the Smoot plan for a 3 per cent, production or manufacturers sales tax. The opposition of the Republican group, led by Senators McCormick, Lenroot and Capper, to this scheme was expressed by Senator Lenroot in a speech in the Senate. Senator Smoot replied with a defense of the tax.

In opposing the Smoot sales tax Senator Lenroot declared that it "utterly ignored the rule that taxes should be imposed according to the ability to pay." He insisted that the tax would be pyramided when passed along to the consumer.

Senator Lenroot said that the tax falls upon a business which is operated at a loss as well as one which makes a profit.

Senator Lodge conferred with President Harding today regarding the changes that must be made in the bill. Details of the conference were not forthcoming, but apparently the President gave his O. K. as there seemed to be a general understanding in the Senate later that the bill would be rewritten.

The overthrow of the Republicans of the Finance Committee on a bill of this importance is almost without precedent. Acceptance of the com-

## K. OF P. TROPHY IS WON BUY ROANOKE TEAM

### Prize of $250 May Become Permanent Property Of Winner

### CONFER RANK ON 15.

**Work Exemplified in Young People's Last Night. Pythians Off For Home. Convention Big Success.**

The degree team of Osceola Lodge No. 47, Knights of Pythias, of Roanoke, yesterday afternoon captured the grand trophy prize of $250 in its contest with Rathbone Lodge No. 93, of Norfolk, in the work of conferring the rank of Page. The ceremony took place in the Elks' Hall and was concluded about 5 o'clock yesterday afternoon which brought the fifty-third annual convention of the Knights of Pythias to a close. Osceola Lodge has a membership of 1014 and is one of the largest in the state.

This is the second consecutive time that the trophy has been captured by Osceola Lodge. It was provided when the work was inaugurated several years ago, that it was necessary for the prize to be won three consecutive times in order to become the permanent property of any degree team. No provision, it is stated, was made for a continuation of this prize by the convention and in all probability the prize may become the permanent property of Osceola Lodge.

The rank of Knight was conferred on a class of fifteen candidates last night in the Young People's building by the degree teams of Oriental Lodge No. 6, of Alexandria and Syracusian Lodge No. 10, of Washington. The work was witnessed by a large number of the visitors as well as the local Pythians.

Practically all of the delegates who attended the convention departed today for their homes, many leaving last night. All of the delegates expressed themselves as well pleased with the treatment they received while in this city. The convention is reported to have been one of the most successful ever held in the state. As heretofore stated the Pythians next year will meet in Norfolk.

## STATE NEWS

Richmond—Senator Trinkle reached here yesterday morning from Roanoke, where he spoke last night. At headquarters he said that the progress of the campaign was wonderful; that he had been addressing crowds that had more than overflowed the largest buildings obtainable and that the women were taking peculiar interest in the fight. "They are organizing and they are ready to vote for the Democrats. "The local men," said Senator Trinkle, " are speaking in every direction and there is much enhtusiasm." He predicts that there wil be far more than enough Democrats to control the legislature if the Republicans fail to attend after they have elected their men in every one of the doubtful districts. The War Memorial Commission today voted to provide only such auditorium in the proposed building as will not interfere with plans for the library, and there will be a room that will seat approximately 500 persons instead of 4,900 as was expected. The architect said that the library would be destroyed if there were an auditorium such as desired and that the funds would be inadequate. There will be rooms for the display of all sorts of relics of the World War.

Petersburg—Joseph Samuel Langford, one of the oldest living Confederate soldiers celebrated his 102nd birthday anniversary the other day with a walk about a mile and a half enroute to this city to be entertained by members of the Daughters of the Confederacy. He took his "next" at barber shop before the entertainment "to get fixed up for the girls," as he said. Mr. Langford, who lives with his daughter in Chesterfield county, has 15 grand children and 45 great-grand-children. At 41 he joined the Confederate Army, served in a number of battles including the Battle of the Crater, and delights in telling his experiences as a Confederate spy. He is active and goes about unaided.

Lynchburg—Grand Exalted Ruler W. W. Mountain, of the Elks' order, who will pay an official visit for inspection of the Elks' National Home at Bedford, will visit the local lodge Saturday night. A smoker and social session will be given by the lodge here in honor of the head of the order and his party, Fred Harper, past exalted grand ruler, member of the local lodge, heads the committee named to arrange entertainment for Mr. Mountain.

Danville—Two small children of Mrs. George Bray miraculously escaped death here day before yesterday in a runaway automobile. The children were playing in Walter Broomfield's car, parked on a steep hill, when one of them released the brakes and the automobile ran away. Increasing its speed down the hill the car tore through a fence and took a sheer drop of thirty feet to the railway track, straddling the rails. The children were thrown out ,but neither was hurt. The car was demolished.

Petersburg—The first step on the part of the city officers in the matter of the Virginia Railway and Power Company's curtailment of trolley service here is the action of City Manager Louis Brownlow in writing John E. Harvell, general manager of the traction company for this trict, asking his views on the situation as soon as possible. No action was taken by the city council in the matter at its meeting Tuesday night

Richmond—Lee Camp annex to the Confederate Memorial Institute, at the Boulevard and Kensington navenue was opened yesterday afternoon with appropriate exercises, in the presence of a large gathering of veterans of the Confederacy and their friends The annex will not only be the meeting place for Lee Camp, but contain the valuable collection of Confederate portraits assembled by the camp through many years of activity.

Norfolk—That two Japanese and one Greek were drowned in Hampton Roads last Monday, when they overboard from a small launch, is the opinion of Deputy Sheriff Tom Curtis and Detective-Sergeant Henry S Curtis, of Hampton, who have been in Norfolk today seeking trace of the two Orientals. A murder charge in connection with their disappearance is probable.

Norfolk—The Great Northern, to be flagship of Admiral Hillary P. Jones commanding the Atlantic Fleet, arrived yesterday, docking at pier 2 Naval Operating Base, about noon She wil remain here about twenty four hours, discharging passengers brought from the West Coast and from Port au Prince, San Domingo and will sail for New York tomorrow when Admiral Jones will hoist his flag

## JOBS ARE FOUND FOR MANY OF UNEMPLOYED

### Reports From 65 Large Cities Show Increase In Employment

### CONDITIONS IMPROVE

**Industrial Situation Shows Much Improvement as Cities Heed President's Appeal.**

Washington, Oct. 7.—The steady flow of monthly reports from the Department of Labor showing constant additions to the ranks of the unemployed was broken today when the report for September appeared and told a story of men and women going back to jobs—slowly, but over so widespread a territory and in so many lines of industry as to indicate that the swing back to prosperity actually is under way.

Baltimore was one of the cities reporting increased employment. In percentage of increase it ranked third with Kansas City. Toledo reported an increase in September over August of 24.1 per cent.; Portland, Ore., was second, with 21.7 per cent. increase and Baltimore reported an increase of 10.9 per cent. The number who went back to work in Baltimore for the firms reporting to the Department of Labor was 2,741. Other leading cities showing increases of employment were Memphis, Tenn., 9.9 per cent.; Minneapolis, 8.2 per cent.; Pittsburgh, 8 per cent.; Youngstown, Ohio, 7.9 per cent. Chicago reported an increase of 1.15 per cent, and New York showed a decrease of 2.2 per cent.

The figures of the department do not show the entire movement, for they are taken from reports made by 1,428 firms in 65 principal cities, each of which usually employes more tahn 500 persons. Taking these reports, the Department of Labor finds that September 30 these concerns had 18,050 more employes on their payrolls than they carried on August 31, an increase of 1.2 per cent Of the 65 cities covered in the survey, 28 were in the list of those which showed additional employment.

The department goes on to say that the increase in employment confirms the trend observed in August, indicating that the "industrial pendulum is definitely on the upward trend." The most marked changes occurred in the South and West, due to advances in cotton and agricultural activities, but the industrial districts of the East also made progress, leading in textiles, iron, steel and railroads, while building operations continued actively, and showed signs of maintaining its pace until severe weather sets in. The dark spot found by the Labor Department is the probability that agricultural workers will join its ranks of the unemployed in the cities during October unless buffer employment is provided.

The survey does not cover fully what has happened in the smaller concerns. However, it is reported from Baltimore that 95 firms employing less than 500 persons each report an increase in employes of 224, or more than two persons each, and similar reports came from other localities.

## FINAL PERFORMANCE OF "SHIP AHOY" TONIGHT

A capacity house greeted the local Thespians in "Ship Ahoy," last evening in the local Opera House when the play was presented with the ease and grace that becomes a professional production. The old opera house literally shook with applause and laughter as the play progressed and it is said that if tonight's audience is any more responsive that that of last night the sponsive than that of last night the building is liable to be condemned by the State officials.

Tonight is the last time the play will be presented in Alexandria and although there still remain a few good unsold seats, there is evidence to believe that tonight's capacity will even surpass that of last night. If you have not seen this play and will be unable to attend tonight, you are more to be pittied than censured, for each one of the 200 persons connected with the production are standing ready to give their best performance tonight.

Much credit is due to the committees who have so faithfully given their services to the production and although they are not seen upon the stage they are never-the-less behind the scenes contributing their best efforts toward a smooth and finished play. Those who are in charge of the stage end of the production are:

John P. Robinson, Stage Manager

Magnus W. Bales,—Assistant Stage Manager.

E. E. Lawler, Jr.,—Stage Electrician.

J. M. Duncan, Jr., Property.

R. M. Green, Jr., Spotlight Operator.

O. A. Reardon—Floor Manager.

The committee are in charge of the following people: E. E. Lawler, Jr., General Chairman; Magnus W. Bales, Assistant Chairman.

Advisory—Gilbert J. Cox, Jr., Dr. J. T. Ashton.

Ticket—C. Fletcher Dyson, and Harold V. Quigley.

Publicity—T. W. Robinson, Jr., J. M. Dinwiddie, Miss Hilda Schneider.

Talent—Mrs. K. W. Ogden, Miss Corrine Reardon, Mrs. T. C. Howard, Mrs. C. F. Holden, Miss Lyda McLaughlin.

Program—Miss Josephine Gregg, Miss Sarah Kemper, Miss Charlotte Kemper.

Pianists—Miss Hilda Schneider, Miss Helen Rhodes, Miss Frances Barnhouse.

The Boat Club wishes to thank everyone who in any way helped to make the production of "Ship Ahoy," a success.

### *Dreadnaughts vs Professionals*

**Last Game of the Season for Baseball Fans at 3 P. M., Sunday**

The baseball fans of Alexandria will see their last game of the season Sunday, when the Dreadnaughts line up against one of the fastest baseball teams that has ever played in this city. This team is managed by "Tots" Long, brother of the Dreadnaughts' first baseman; and it is claimed that he is one of the best third baseman in the business.

This team is composed mostly of professionals, and a few first class amateurs. Fitzgerald, catcher, who played with Waynesboro this season and made a fine reputation by his great work behind the bat. Long will play third, and this lad is one of the greatest that ever put on a pair of spike shoes, he holds the record for hitting in consecutive games, with a total of 32. He also came within three points of leading the Connecticut State League in batting, he played with Waterbury. Al. Watts, second base, who played with Shreveport this season, also had a remarkable season, he will be recalled by the Washington Club, who has an option on this services. George Watts, a brother of Al, will be seen in left field.

Gurley, a short stop from the Southern Association, is also a great ball player. Duffey, first base, from the International League, touted as a great clouter and fence buster. Dutch Sturgeon, right field, who played with Navy Yard this season, is also classed as a good ball player. Atkinson, center field of the Rochester Club, has also been holding his own this summer. Barnhardt, touted as the best short stop in the city of Washington, who has been playing with the Rex this season, will be on hand. Now comes the most important part of the story. Sedwick, who has been pitching for the Philadelphia Nationals for the past three months, will toss them over to the Dreadnaughts, and if the home club expects to win, they had got to hustle, for they are up against the strongest club they have faced this season. So fans if you want to see a real ball team, come out to the park Sunday and look these professionals and semi-professionals over. Dont miss the last game. Everybody is welcome.

The game starts at 3 o'clock and Long, Washington's best umpire, will officiate.

New York, Oct., 7—The Yankees won their second consecutive game of the World Series yesterday by the conventional score of 3 to 0, but this time the Giants can blame their misfortune on the crime wave.

Waite Hoyt covered McGraw's men and held them helpless while Babe Ruth and Bob Meusel sent through their pockets. Ruth stole second and third and Meusel stole home. Those were crimes of violence rather than of stealth. A miscreant who went to the City Hall and carried off "the ruffles and flourishes" could hardly display more audacity.

There was, to be sure, an element of surprise in Ruth's stolen bases. It is startling to see so huge a man suddenly abandon his fixed post at top speed. If some morning the Woolworth Building should lean over and pat a passer-by on the back without preliminary warning somewhat the same effect might be created as that which attends the sight of Ruth's entire body in motion all at once.

Meusel's steal of home was different. The plate was as openly arrived at as they said the covenants would be. His feat was more than a steal. It was the most successful and public piece of revenge ever executed since the Ides of March when Brutus stabbed Caesar at the foot of Pompey's statue. When Meusel came to bat in the eighth inning, Earl Smith, the Giant's catcher, crowded him, or at any rate Meusel thought he did and mentioned the matter. Words followed What they were makes no particular difference, but they mounted to so great a freedom and passion that Moriarity, the umpire, was shocked and stepped up to reprove the players.

At some point or other in the debate Earl Smith said "You're yellow," Meusel got to base and had time to reminate about this. It rankled. He was tempted to defy the umpire, and shout out across the diamond at Smith, "I'm yellow, am I?" but by and by an opportunity for something better presented itself. The course of play brought Meusel around to third and here the great idea descended upon him. Openly he conferred with Fewster, who was coaching on third, and sent him to the plate with a message for Ward, who was at bat.

The message Fewster relayed was the same as that of the prodigal son's: "I'm comnig home," said Meusel. Fewster whispered loud enough for Smith to eavesdrop and the catcher braced his fatted calves for the onslaught. But he could not brace his heart. Meusel was off with the pitch, running high and hard. Vengeance flamed from his nostrils. The pitch had him beaten by many feet, but that was within the scope of his plan. It was quite evident that he welcomed the chance to dash 185 pounds full against the man who had called him yellow and still remain within the law.

Meusel did not slide. He wanted to use his elbows Smith didn't welcome the chance; he dropped the ball. Such

## POE ANNIVERSARY

Today is the seventy-second anniversary of the death of Edgar Allan Poe, greatest of American poets, father of the modern short story, and a name honored all over the world as one of the Immortals. Poe's genius consisted in the perfect wedding of music and words. Rhyme, rhythm, metre, thought, language—all in wondrous harmony, and forming such a flawless union, that the divorce of either from the rest would mar the matchless expression.

The purity of Poe's verse is notable. Much of it seems not of this world but far above it, in ethereal regions where the soul is freed from its material dross, and unclogged by its fetters of flesh. The passion of love, as portrayed by him, is of the same exalted spirituality as that of Dante for his Beatrice. The charm of Poe lies in the spell he casts upon his readers. He opens vistas into realms but dimly seen; a twilight of romance and revery; a hint of a supernal existence; of a life of celestial beauty, that we may all be heir to after this life's fitful fever. Keats and Shelley are the only two English poets with whom he is comparable. There is much of the same idealization of things earthly, common to each.

Master of the domain of verse, as he was, he shone with equal brilliance in prose. His short stories are among the greatest, if not the greatest, in any language. There is no approach to them among English writers. The French only are worthy of comparison, and they have with one voice acclaimed him as their master and their model. Flaubert, Gautier and de Maupassant, perhaps the greatest three, freely acknowledge their debt to the American. Until he wrote his world-famous tales, there was no short story in Art. He was the creator and he has never been surpassed. His powers of deduction, his keen analysis, his elucidation of mystery, savor of the marvellous. He was unique in that the gift of poetry, which is purely inspirational, was joined with a mathematical mind. Logic and improvisation do not usually dwell together; but the brain of Poe seemed to compass them both.

Poe's life was a tragedy. Endowed with transcendant powers, he was yet compelled to earn his daily bread and butter. The machinations of business were foreign to his nature. He was as a child in the mart of men, and the wings of his genius were bedraggled in the muck and mire of bargain and sale.

We publish elsewhere today an account of a memorial erected to the memory of Edgar Allan Poe. It is fitting that the city of Richmond, where he passed so many of his years, should at last have consecrated a spot whither pilgrims may come, and will come, so long as his immortal verse shall delight the ear and enchant the mind of future generations.

INGROWN TOE NAIL TURNS OUT ITSELF

A noted authority says that a few drops of "Outgro" upon the skin surrounding the ingrowing nail reduces inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it can not penetrate the flesh, and the nail turns naturally outward almost over night.

"Outgro" is a harmless, antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.

## Want Out-of-town Manager

(Communication)

The women of Alexandria whose vote undoubtedly won the election for the change of government are getting peeved by the rumor that a town man will be appointed general manager. Many would not have voted, except for the fact it was represented that we would have a man from elsewhere, who entered the office with a clean slate and would play no favorites. We have suffered much in the past from the fact of hurting somebody's feelings. We want a man who if necessary will hurt the feelings of every inefficient man in town. Give us a clean sanitary city and show us where our money goes, a man who fears no man only the Lord. In regard to the Councilmen why should'nt a woman be put on the board. This town needs a good housecleaning and women are the ones to do it.

Most of the cities who have tried this plan of government have been benefitted and nearly all have brought new blood from outside, we want a live business man not a politician—one who will give us "qrid pro quo"—or our moneys worth.

### ONE TASK FINISHED

After two years of work, the Junior Aemrican Red Cross, whose membership is composed of the school children of the United States, ahs completed its task in Czecho-Slovakia. The great work launched by it in that country is to be continued by the Czecho-Slovak Junior Red Cross recently organized. The success of the Americans is attested by resolutions adopted by the Czecho-Slovak organizations thanking "those anonymous donors, the memory of whose gifts will live in teh bright looks, healthy bodies, warm hearts, quick brains and industrious hands of our children."

The final report of Miss Fanneal Harrison, who directed the work of the Junior American Red Cross in Czecho-Slovakia, adds another chapter to the story of heroic endeavor and achievement being written by the men and women who represent the American Red Cross in Europe. Her account of the reorganization of an orphanage in Ruthenia indicates teh obstacles that had to be overcome at every turn as well as the complete triumphs won.

"Looking back over our experinece at the Orphanage," says Miss Harrison, "we can laugh now, but at the time it was no laughing matter. After the first month we realized the unreliability of promises, as it was only under certain conditions that we took over the Orphanage. We would have been justified in withdrawing them, but our contract was for six months, the children needed us, and so we took matters into our own hands.

"We called in the police and evicted the former director and his family Also, we evicted several old government servants, hangers on from the Magyar regime. Feble minded children we sent to other institutions or back to their native vilages. Becoming quite desperate over the inadequate bathing and toilet facilities we patched them up to serve us temporarily. We had funny and bitter times, but always hard, hard work.

"All the time the children were daily becoming more alive, the death like pallor was going, the whining of weak little animals was giving place to lusty shrieks of anger or rollicking aughter. We had swept cockroaches out literally by the shovelful We had burned mattresses that weer fairly alive. We had kept babies living through desperate days and nights when the Czech doctor had abandoned hope, and during the last two months succeeded in having a happy family in a clean, sweet-smelling home. A big and mixed family it was—children, nursing mothers, servants, and trained nurses—Russian, German, Hungarian, Slovak, and Aemrican. Friendly hearts overcome the barriers of language; little Magyar or Russian voices would great us with a "Good morning" or would nimbly reel off many of our Mother Goose rhymes.

"Every day from outside the four high walls, from a radius of thirty miles, foster mothers would come with a sick child or to get some warm American clothes for the child left at home. And every day in the Ford camionette loaded with supplies, the American nurse would start forth to visit some of the one thousand children the Government had placed in peasant families. Every child was visited. Often they had to be brought back into the warm ome to be given a new lease on life or to stay until a more suitable family could be found for them It was difficult work this improving bad conditions in the peasant homes, teaching the foster mothers the care of the children or removing them when conditions were hopelessly bad. But, pegging away at it day after day did the job, and we know that at the end of our six months these children had a much better chance than ever before. Not only were the children better cared for, but a few of the worst Government inspectors were removed, and, it seemed to us, we had been able to infuse a better spirit and understanding of their work into others.

"We loved the children and hated to leave them. Before we told them good-bye we decided to give them a Christmas they would long remember. Such a beautiful tree, such a warmth of light and color, such good things to eat, toys, real dolls, and knives and games and books—such rapture. They had never seen such things before. No, our children will not forget that Christmas and their 'dear American friends.'"

***What Happened in Des Moines***
**No. 8**

Bus men assured car riders, before the street car company of Des Moines was starved into stopping service, that they would furnish a ride at 5 cents.

**Fares on many buses went to 10 cents and 25 cents when the cars stopped running.**

This caused much complaint. It should not have, though, for every informed person knows that buses cannot give city-wide service for 5 cents.

Read what G. A. Green, General Manager of the Fifth Avenue Coach Company, of New York, one of the leading authorities on bus transportation, says:

**"It should be borne in mind that the financial success of the Fifth Avenue Coach Company is largely due to the 10 cent-fare. On a 5 cent basis its development would have been absolutely out of the question."**

Inadequate fares and unrestricted bus competition forced the Des Moines street railway to abandon all city service—over 92 miles of lines—on Aug. 4, 1921.

## POE ANNIVERSARY

This day marks the seventy-second anniversary of the death of Edgar Allan Poe. If the poet is aware of mundane affairs he must be pleased to find that, at length, there has been reared to his memory a lasting and appropriate memorial; more pleased, perhaps, because the city in which he passed so many years of his life offers this tribute to his genius.

Mrs. Archer Jones has worked with the Poe Memorial Trustees, using building material from the Southern Literary Messenger building, the Ellis and Allan storehouse, where Poe was once employed, and the house in which Poe's mother died in Richmond. In the Poe district on Main Street, the "Old Stone House," the oldest structure in Richmond, was restored and a "Poe Pergola," erected. A garden has been designated there to perpetuate the idea of Poe's 'Enchanted Garden," once located in Richmond. It is indeed a "green isle in the sea," of commerce surrounding it. The fountain with its gently playing stream framed by the arch of the shrine, makes this enchanted garden seem like a dream come true.

Ample room has been arranged for the preservation of Poe relics, and first editions of his works and manuscripts.

The Shrine will now be opened to the public, after an expenditure of something like $18,000, which has been most generously advanced by the founders.

### HIGHWAY TO RICHMOND

Richmond, Oct. 6.—Among the recommendations to be made to the 1922 General Assembly by State Highway Commissioner George P. Coleman will, it was today learned, be the enactment of new legislation for appropriation of funds to properly provide for rebuilding and widening roads now under maintenance by the Department. A number of sections of highway taken over by the Department to connect up the State System had been previously improved by the counties, and the Department is now confronted with the problem of maintaining these sections without adequate funds with which to finance the work.

Commissioner Coleman's recommendations will, it is said, urge upon the General Assembly the importance of this class of work. Approximately 2,000 miles of roads have been taken over by the Highway Department in order to connect up sections of the State System, of which about 1,200 require resurfacing and widening, and Commissioner Coleman is said to feel that no other work before the Department is of greater importance than proper maintenance of all highways.

The highway from Richmond to Washington is one of the roads to which the Commissioner will call especial attention in his report. About 75 per cent of this road is of soil and gravel construction, making maintenance cost much greater than would be the case were the highway permamently improved. Traffic over this road is heavy at all times of the year, especially during the fall, spring and summer months, which adds to maintenance cost. Approximately 5 per cent of the highways south from Richmond are also of soil and gravel construction. The report of the Commissioner will show, it is said, that the grading and drainage established by the Department on these roads are permanent, making unnecessary further expense for this class of work to permanently improve the highways.

Much interest is being evinced here in the recommendations to be made by Commissioner Coveman, and the announcement today that he would emphasize the importance of properly improving sections of highways taken over from the counties is taken here to indicate that legislation along this line will be pressed by good roads advocates in both House and Senate.

Why The First Aid To Good Health Is Pure Blood

Waste Products in the Blood Cause Many Forms of Rheumatism, Skin Disorders, and A Lowered Vitality.

Many People Do Not Understand Nature's Warning.

When you have that feeling of fatigue; when you lack the energy you need for the day's duties and pleasure; when you are troubled with pimples, blackheads, bad boils, sores or some other skin eruption; or when you have rheumatic pains in the muscles and joints, don't wait until you collapse in a state of nervous prostration, or until in your weakened condition you contract some serious disease, but start at once to get the waste products out of your blood.

Nature has certain peculiar ways to warn us. Fortunate, indeed, is the person who knows her danger signals.

Thousands and thousands of men and women during the past 50 years have relied on S. S. S. to clear their blood of waste products. S. S. S. will improve the quality of your blood by relieving you of the waste products which cause impoverished blood and its allied troubles—skin disorders, rheumatism and a lowered vitality.

The same qualities which give S. S. S. its beneficial effect in clearing your blood of waste products make it extremely desirable for *keeping* your blood in good condition.

S. S. S. may be had at any drug store. Write Chief Medical Director, Swift Specific Co., 715 S. S. S. Laboratory, Atlanta, Ga., and let him help you regain your health and strength. Give him a full description of your case. He is helping people every day (without charge). Ask him to send you his illustrated booklet, *"Facts About the Blood"*—free. S. S. S. is sold at all drug stores.

**Kidney and Bladder Troubles HAVE TO GO**

Clogged up Kidney Deposits are Dissolved and the Toxins (Poisons) Completely Driven Out. Druggists Told to Guarantee it in Every Instance.

"Your very life," says Dr. Carey, "depends upon the perfect functioning and health of your kidneys so whatever you do don't neglect them."

Dr. Carey's famous prescription No. 777 known as Marshroot is not recommended for everything, but we cannot too strongly urge its use if you suffer from annoying bladder troubles, frequent passing of water night and day, with smarting or irritation, brick dust sediment or highly colored urine, bloating irritability with loss of flesh, backache, rheumatism or any other tendency to Bright's Disease, Diabetis or Gravel, for kidney disease in its worst form may be stealing upon you.

Don't wait until to-morrow to begin the use of this wonderful prescription if you have any of the above symptoms, Kidney and Bladder troubles don't wear away. They will grow upon you slowly, stealthily and with unfailing certainty.

Never mind the failures of the past if you even suspect that you are subject to Kidney Disease, don't lose a single day for—every good druggist has been authorized to return the purchase money on the first two bottles to all who state they have received no benet.

**CALOMEL GOOD BUT AWFUL TREACHEROUS**

**Next Dose May Salivate, Shock Liver or Attack Your Bones**

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attack the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and it if doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work; Dodson's Liver Tone straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

(Continued from page one)

a revenge would seem to be ample enough for anyobdy, but there were further words as Meusel crossed the plate, and the entire Yankee team was compelled to rush out from the dugout and drag Robert away. All this time Meusel's older brother, Emil, sat not 100 feet away and made no voice to help his brother by word or deed The bitterness of the series has now grown to true Civil War venom.

## G. O. P. CHIEFS REVISE INCOME TAX

promise amendments was plainly the one way out to prevent defeat or emasculation of the committee bill. Substantially, the amendments agreed upon by the Republicans among themselves are those sponsored by the Democratic side and offered last week by Senator Simmons, ranking Democrat of the Finance Committee. At the time their fate was doubtful, but the opposition to the Tax bill has increased so steadily that about 48 hours ago the regular Republican organization awoke to the fact that the Democrats and "agricultural bloc," with a few Republicans not consistently affiliated with that bloc, were in control of the Senate situation.
